

AUTONOMOUS VEHICLE ACCESS CONTROL SYSTEM A.V.A.C.S.

LAW ENFORCEMENT TACTICAL DEMONSTRATION

info@domistat.com

The Autonomous Threat Vector

"With autonomous vehicles on the horizon, it is possible for a driverless car to be like a runaway horse and cart in the days of the old West."

- Risk of weaponized vehicles !
- Hostile takeover of autonomous systems !
- Necessity for a law enforcement override !

Regulatory Oversight & Authorization

Deployment of A.V.A.C.S. necessitates a robust legal framework. The system remains locked until proper authorization is granted.

- Judicial Warrant Requirement
- Owner Consent (Non-Emergency)
- Mandated Data Audits
- Limitation of Use Protocols

The Tactical Data Pipeline

1. Vehicle Embedded SIM Card

- Secure Identity
- Encrypted Communication
- Real-time Data Stream

2. Law Enforcement Online Dashboard

- Access Authorization
- Remote Execution of Controls
- Monitoring & Alerts

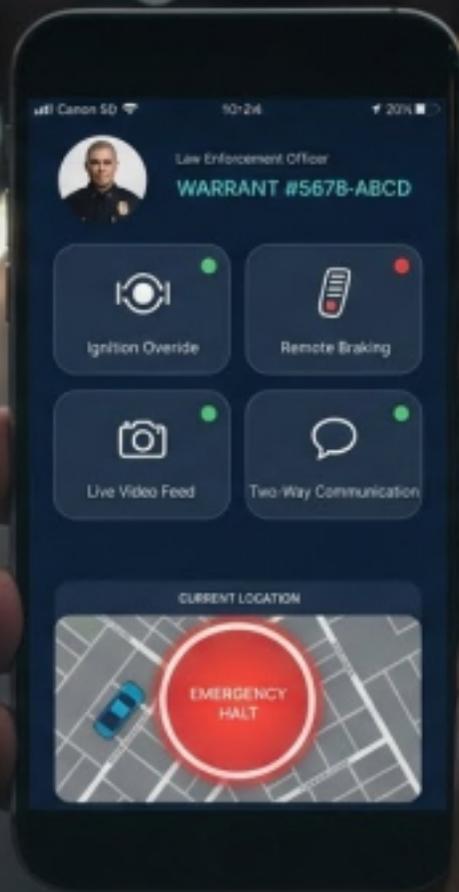

A.V.A.C.S.
Command
Center

3. GPS and Telemetry Satellites

- Global Positioning
- Vehicle Tracking
- Geofencing & Navigation

First Contact: Mobile Authentication

Command Center Dashboard

Global positioning, real-time telemetry, and full environmental capture locked and synced.

Target Acquisition & Telemetry

WARRANT No: 23-443271840	WARRANT REQUESTED: SGT JONES - 56799	
VEHICLE MAKE: GMC	VEHICLE MODEL: TERRAIN	VEHICLE YEAR: 2020
VIN: ABC123098DEF456Z		

 Hazard Lights <input type="checkbox"/>	 Brakes <input type="checkbox"/>	 GPS Tracking <input type="checkbox"/>

INITIATE SAFE
PULLOVER

ESCALATION INTO CIVILIAN ZONES

Target is at Lat: +45.0163, Long: -122.7756

Initiating Master Override

STOP ALL

VEHICLE WILL HAVE DOORS AND
WINDOWS LOCKED,
BRAKING WILL BE APPLIED,
IGNITION WILL BE LOCKED OFF.

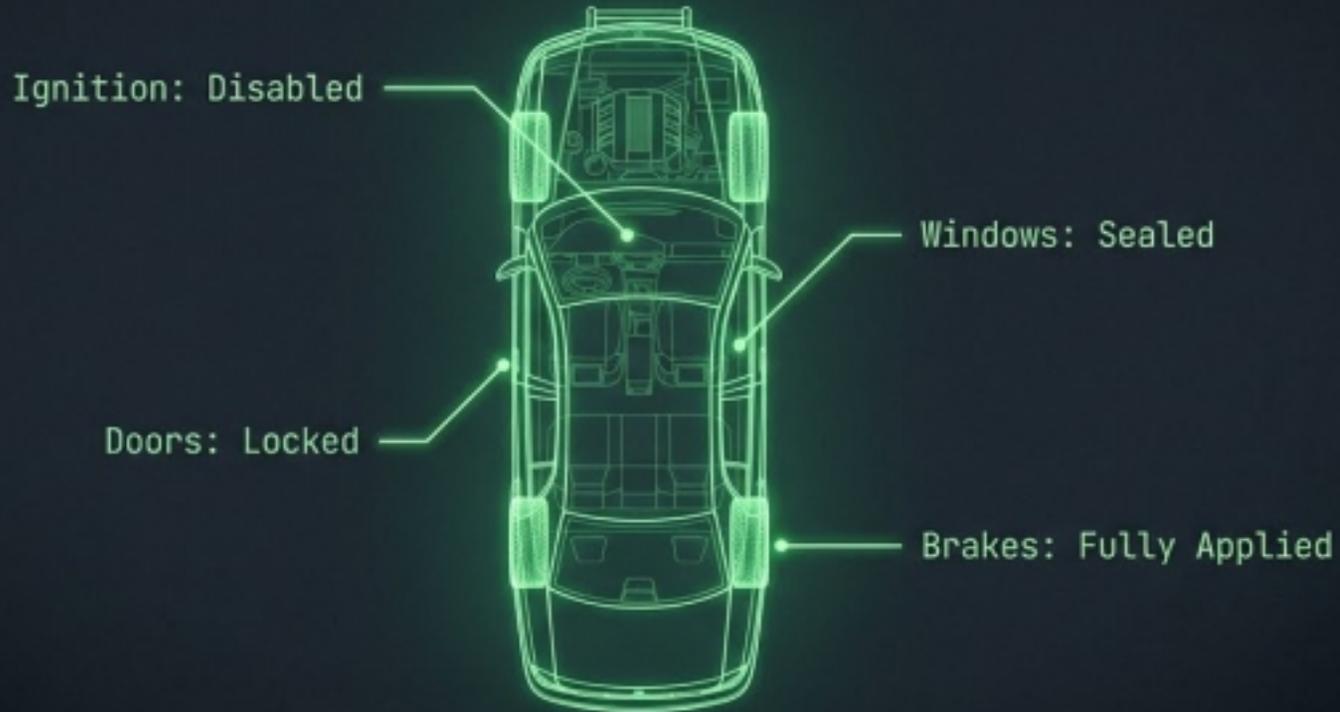

TURN ON CAMERAS,
LISTEN, SPEAK AND GPS MANUALLY.

CANCEL

THREAT NEUTRALIZED

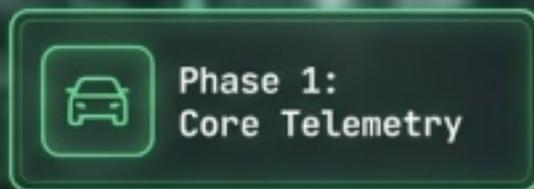

Public Safety Realized

A.V.A.C.S. minimizes the need for high-speed pursuits and provides tools to immediately de-escalate potentially dangerous situations.

- Minimized civilian risk
- Reduced property damage
- Faster apprehension times
- Enhanced officer safety
- Proactive threat neutralization

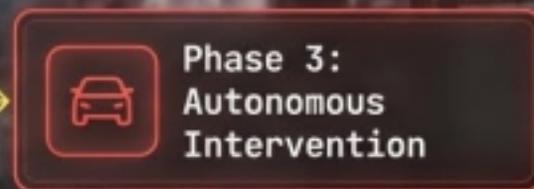

The Roadmap to Deployment

- GPS Tracking & Data Logging
- Real-time Vehicle Diagnostics
- Geo-fencing & Alerts

- Door & Window Locking
- Engine Start/Stop
- Climate Control Activation

- Ignition Override
- Automated Emergency Braking
- Self-Parking Assist
